

2017 EMI International Conference

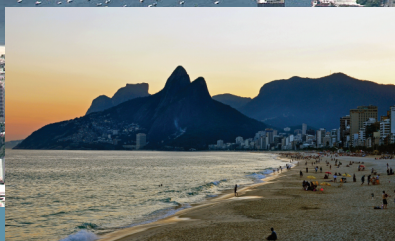

Rio de Janeiro, March 19-22, 2017

BRAZIL

JW MARRIOT HOTEL

Rio de Janeiro

Rio de Janeiro has been known as the "wonderful city" long before the inclusion of one of its landmarks among the New7Wonders of the World. The city's diverse landscape of mountains, lakes, the world's largest urban forest and an unending beachline can only be matched in beauty by its warm, gentle and hospitable people: the "cariocas". The recently renovated downtown and old harbor areas have set a new balance between tradition and modernity – and new sites for culture and joy.

A CONFERENCE OF THE ASCE / ENGINEERING MECHANICS INSTITUTE

The participants will be offered the opportunity of developing invaluable peer collaboration and network initiatives within the global mechanics community, which may include taking part in several EMI committee meetings. The South American engineers are especially targeted and will have a chance to become familiar with the EMI and ASCE activities (<http://www.asce.org/engineering-mechanics/engineering-mechanics-institute/>).

You are invited to present original research results in the technical sessions to be organized on traditional and advanced topics of Experimental, Computational and Engineering Mechanics.

IMPORTANT DATES

- AUG 15, 2016** SESSION SUBMISSION
- NOV 15, 2016** ABSTRACT SUBMISSION
- DEC 15, 2016** NOTIFICATION OF ACCEPTANCE
- FEB 15, 2017** EARLY REGISTRATION
